

TVPROMPT

<https://tvprompt.tv>

UNLIMITED TEXT

Management of long texts for presentations, speeches or papers, TV news, etc.

SMOOTH TEXT TRANSITION

With fast text movement and speed reversal without jumps.

ANTI_ALIASING

Text smoothing, eliminating the unsightly effect of staggered edges (pixelated text).

MULTIPLE MONITOR MANAGEMENT

Allows to work in extended or clone mode with 2 monitors (control and prompter screen).

MIRROR IMAGE INVERSION

It inverts the output image both horizontally.

AUTOMATIC WARNINGS

Instant messages in real time. Allows automatic deletion. With customized colors.

INCLUSION OF HOT CUE

In the same text or script, even in several playlists, for instant access.

IMPORT OF DIFFERENT TEXT FORMATS

Plain text files (.txt), rich text files (.rtf), OpenOffice text files (.odt) and Microsoft Word files (.docx) without needing to have Office installed.

REMOTE CONTROLS

Supports a variety of remote controls: foot or handheld; IP, USB, Wireless, etc.

In addition, several can be used simultaneously and monitored in real time.

CUSTOM FUNCTION PROGRAMMING

With IP foot remote control.

REAL-TIME TEXT EDITING

TVPROMPT

XPRO

TELEPROMPTER DISPLAY SOFTWARE TVPROMPT XPRO

COMPLETELY UNICODE SYSTEM

Introducing XPRO, an enhanced version of TVPROMPT control software for teleprompter systems. It offers keyboard-adjustable sensitivity and speed to meet the latest market demands.

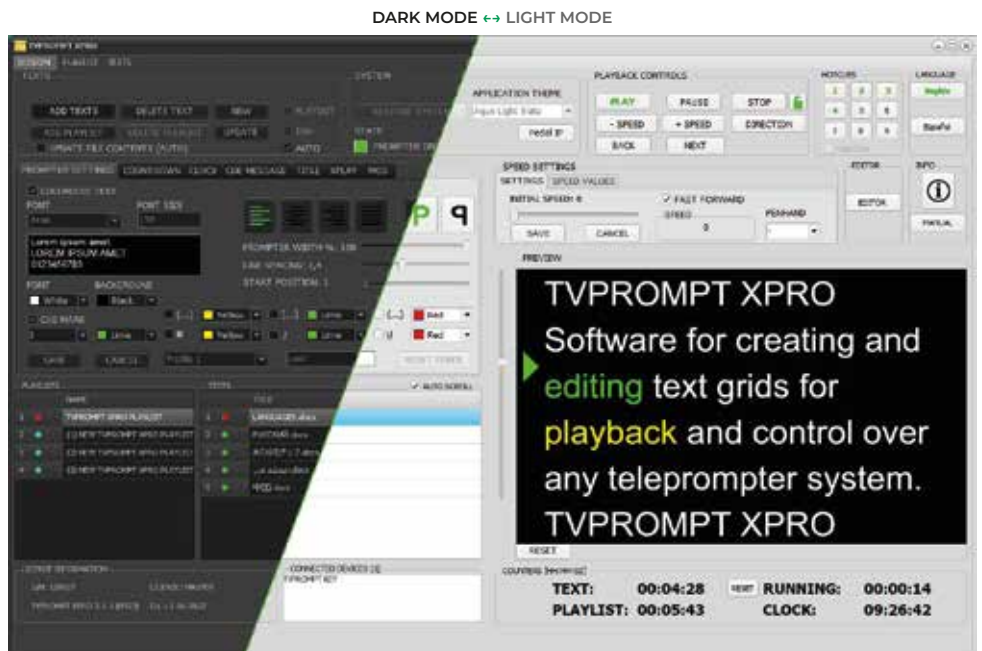

Specially designed for political rallies, speeches, TV news and long texts in general.

- Management of all the necessary elements for a complete assisted voiceover.
- Organization and edition of texts in playlist for sequential launching, modifiable during playback. Multiple playlists in one session.
- Management of multiple input devices for complete control of text speed.
- Customized background color and text on prompter screen, as well as word or letter highlighting.
- Instant language switching without leaving the software. Available in Spanish and English.
- Text advancement control via keyboard, with adjustable speed increments.

CUSTOMIZABLE INTERFACE

Customizable graphical control interface, being able to choose the theme of the application by adapting the visual image.

RELIABLE AND SAFE

TVPROMPT XPRO provides you with all kinds of on-screen information so that you can always keep track of your speech timing, set and save your favorite fonts, change text alignment, change the speed of headlines on the screen, start texts automatically, etc.

All this offers a powerful system that will assist you reliably and safely at all times.
