# REMOTE CONTROL SHUTTLE FOR TELEPROMPTERS

Customization of functions in handheld remote control.

Programming profile automatically loaded when TVPROMPT software is installed.

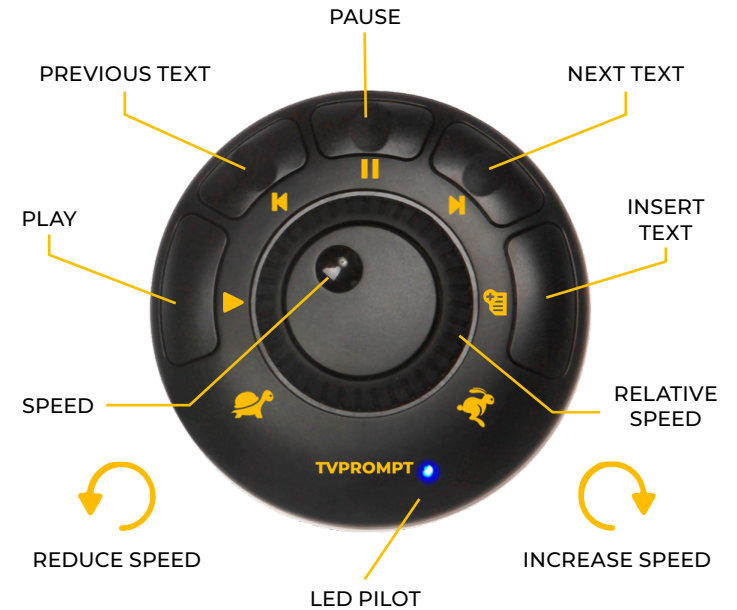

*Optional:* LED operation indicator (on / off).

Compatible with any version of the TVPROMPT software.

USB connection.  
IP connection option

5 programmed buttons as standard, as well as 2 text speed shuttle or script.

## REMOTE CONTROL FUNCTIONS

**NOTE:** In teleprompter systems using the XPRO version of our software, an adapted version of the Shuttle will be provided, replacing the *Play* and *Insert Text* buttons with *Reverse Direction* and *Fast Forward* respectively.
