Remote Control
PEN HAND LE

For Professional Teleprompters

TVPROMPT

Wireless Remote Control for TVPROMPT Teleprompter Systems
TVPROMPT LE | TVPROMPT XPRO | TVPROMPT MOS | TVPROMPT iPRO

This **Pen-Hand LE** remote control has been designed specifically for **smooth, professional control of TVPROMPT teleprompter systems**.

The **Pen-Hand LE** is a **wireless remote control (2.4 GHz)** with a **line-of-sight range of 10 to 20 meters** (depending on architectural conditions), designed to manage TVPROMPT teleprompters with complete precision. It is an essential tool because **it gives the speaker absolute control over their speech discreetly and in real time**, allowing them to adjust the speed and navigate the text without losing their natural flow or relying on others during a live broadcast.

Variable Speed:
• Adjust and configure the speed directly from the TVPROMPT software.
Text Navigation:
• Precise control with forward and backward scrolling in increments.
• Quickly jump to the next or previous text by pressing and holding the buttons.
Power Supply:
• Powered by a built-in 300 mAh lithium-polymer battery.
LED Indicators:
• LED indicators to monitor power on/off and low battery level.
Wireless Connectivity:
• 2.4 GHz radio frequency technology with an extended range of 10 to 20 m in direct line of sight (depending on architectural conditions)
• Includes a Plug & Play miniature wireless receiver, designed to easily connect to the computer running the TVPROMPT software.

PEN-HAND LE

Frequency: 2.4 GHz.
Technology: Radio frequency.
Control range: Between 10 and 20 m line of sight (depending on architectural conditions)
Lithium-polymer battery: 400 mAh.
Voltage: 5 V.
Current consumption: < 10 µA.
Dimensions: 22.2 x 14.2 x 7 mm.
Weight: 20 g
