TVPROMPT

Remote Control
PEN HAND V.2

For Professional Teleprompters

Wireless remote control for teleprompter systems TVPROMPT
TVPROMPT LE | TVPROMPT XPRO

This remote control has been specifically designed for **smooth and professional control** of TVPROMPT teleprompter systems.

The device allows to **scroll forward and backward through the text in steps,** with speed configurable from the TVPROMPT software. In addition, it offers the **ability to navigate between text fragments by repeatedly pressing the same buttons**, making it easy to use during presentations, speeches or live broadcasts.

The small wireless receiver is easily connected to the computer where the TVPROMPT software is installed, **without the need for additional cables.**

Variable Speed:
- Speed is set from TVPROMPT software.

Text Navigation:
- Allows you to skip to the next or previous text by repeatedly pressing the same buttons.

Power Supply:
- Battery operated.

LED indicators:
- ON/OFF LED Indicator.
- Low battery LED Indicator.

Wireless Connectivity:
- Includes a miniature wireless receiver.
- Designed to be placed on the computer where the TVPROMPT software is installed.
