Remote Control
PEN HAND XLED

For Professional Teleprompters

Wireless remote control for TVPROMPT teleprompter systems
TVPROMPT LE | TVPROMPT XPRO | TVPROMPT MOS | TVPROMPT iPRO

This **Pen-Hand XLED** remote control has been specifically designed **for smooth, professional control of TVPROMPT teleprompter systems**

The **Pen-Hand XLED** is a **wireless remote control (2.4 GHz) with an LCD screen and a range between 10 and 20 meters of direct line of sight,** designed to control TVPROMPT teleprompters with complete precision. It is an essential gadget because it gives the speaker **complete control over their speech discreetly and in real time**, allowing them to adjust the speed and navigate the text without losing their natural flow or having to rely on others during a live broadcast.

Variable Speed:
• Adjust and configure the speed directly from the TVPROMPT software.
Text Navigation:
• Precise control with step-by-step forward and backward navigation.
• Quickly skip to the next or previous text by holding down the buttons.
Power supply:
• Powered by a built-in 300 mAh lithium-polymer battery.
LED indicators:
• It features an informative LCD screen to display the remote's status in real time.
• LED indicators to monitor power on/off and low battery levels
Wireless Connectivity:
• 2.4 GHz radio frequency technology with an extended range between 10 and 20 meters of direct line of sight *(depending on architetural conditions)*.
• Includes a miniature Plug & Play wireless receiver, designed to connect easily to the computer running the TVPROMPT software.

PEN-HAND XLED

Frequency: 2,4 GHz.
Technology: Radio frequency.
Control distance: Between 10 and 20 m of direct line of sight (depending on architectural conditions)
Screen: Integrated information LCD display.
Lithium-polymer battery: 300mAh.
