

Remote Control **TVP SHUTTLE PRO**

TVPROMPT

The evolution of the renowned USB-SHUTTLE controller

The **TVPROMPT SHUTTLE PRO** redefines the standard for teleprompter control systems. As a direct evolution of the acclaimed **USB-SHUTTLE**, this device has been redesigned from scratch to meet the critical demands of television studios, production companies and live broadcast operators. Its architecture combines **industrial-grade mechanical construction with full software integration**, ensuring a seamless, latency-free workflow and unprecedented durability on set.

*TVP SHUTTLE
PRO*

- **Anodised Aluminium Reinforced Chassis:** An ultra-strong metal construction with drop protection, designed to withstand the rigours and extreme wear and tear of daily use in professional productions.
- **Customisable Workflow (10 Keys):** Features 10 fully programmable action buttons via the TVPROMPT XPRO software, allowing the operator to assign macros, critical shortcuts and specific commands for ultra-fast text management.
- **USB-C Plug & Play Architecture:** State-of-the-art connectivity that combines latency-free data transmission and device power supply in a single cable, eliminating the need for adaptors or external power supplies.
- **Smart LED Visual Feedback:** Integrated status backlighting beneath the keyboard ensures perfect visibility and error-free control in controlled lighting or low-light environments (studios, theatres, auditoriums).
- **Scalability and IP Control:** Ready for integration into complex network infrastructures thanks to its full compatibility with the optional IP Control Module, enabling remote management via local or remote networks.
- **Connection interface:** USB Type-C (bidirectional data and power)
- **Power management:** Bus-powered (powered directly via the USB port, no adapter required)
- **Control panel:** High-precision shuttle wheel + 10 programmable touch-sensitive keys
- **Construction:** Machined, anodised aluminium casing (high strength)
- **Monitoring:** Array of LED operational indicators.
- **Software integration:** Native support for TVPROMPT XPRO.
- **Network connectivity:** Expandable via additional hardware (IP module)

Our Software

TVPROMPT LE | For conferences, training centres and local TV stations.

TVPROMPT XPRO | For political campaigns, speeches, producers, singers and professional TV studios.

TVPROMPT MOS | For integration with NEWS-NRCS news systems and TV studios.

TVPROMPT iPRO | For integration with AVID iNEWS in TV studios.
