

TVPROMPT

Teleprompter PTZ MAX

MAX models use a studio teleprompter system adapted to PTZ cameras.

In this way, the presenter looks in the same direction as the camera, avoiding visual divergence between the lens and the direction of the eyes.

For this purpose, 6 prompter models have been designed: 17", 19" and 22 inches, in standard and 250 / 1,000 / 1,500 nits

TVPROMPT PTZ MAX 17"
Standard Brightness

TVPROMPT PTZ MAX 19"
Standard Brightness

TVPROMPT PTZ MAX 22"
Standard Brightness

TVPROMPT PTZ MAX 17"
High Brightness
1.000 / 1500 nits

TVPROMPT PTZ MAX 19"
High Brightness
1.000 / 1500 nits

TVPROMPT PTZ MAX 22"
High Brightness
1.000 / 1500 nits
